MONEY, STOCKS AND GRAIN

Dull Day Again in Wall Street, with Little Support to the Share List

Financial Matters Wheeling About, and New There Is Talk of Gold Imports-Large Receipts of Cereals at Indianapolis.

THE BOND MARKET.

Railway Issues Were Weak, with Sales Only Reaching \$885,000. At New York, yesterday, money on call was active, ranging from 6 to 25 per cent.,

offered at 8. Prime mercantile paper, 6@8 per cent, Sterling exchange washeavy, with actual business in bankers' bills at \$1.814 @4.8134 for sixty days and \$4.834 @4.834 for de-

the last loan being made at 8; closing

Speculation at the New York Stock Exchange was quiet again yesterday. Trading in railway and miscellaneous bonds amounted to but \$8:5,000. At the opening Manhattan, Cordage preferred and Omaha preferred were conspicuous for strength. Soon after the opening London sold a little Erie, Atchison, Union Pacific, St. Paul and Louisville & Nashville, and at the same time money on call advanced to 25 per cent. This gave the room traders, who are uniformly bearish, an opportunity to bring about a decline of 4 to 24 per cent. Very little support was given the market, but for that matter, the pressure to sell was not large by any means. A further break in sterling exchange led to talk of imports of gold at an early date, and this, together with a let-up in the rates for money near the close, when call leans fell to 6@8 per cent., brought about a little rally. The anhad applied to the clearing house loan committee for \$1,000,000 in certificates had no influence. Now that the Bank of Commerce has shown the way, smaller institutions and others not in as good shape financially will probably follow suit and money in consequence should ease up, particularly in mercantile circles. In the loan department active stocks lent at 5@20 per cent. for carrying. The market left off weak.
Railway bonds were weak and the feature was a drop of 7 per cent, in Denver & Gulf firsts, to 60. Government bonds were firmer and State bonds were dull. Closing

### LOCAL GRAIN AND PRODUCE. Trade Improving as the Financial Scare

Passes Off-Prices, as a Rule, Steady, Wholesale houses are receiving more encouraging reports from traveling salesmen. They report that the financial scare is passing away and business with the country merchants is brightening. Farmers are selling old stocks of wheat and corn and money is getting into circulation much more freely. In prices, yesterday, there were few changes to note, in fact, none of much importance. The tendency of provisions is downward, while in most lines of produce the consumption is so great and there is so large a quantity of the shipments go to Chicago and Eastern markets that there is little accumulation of stocks

The local grain market is active. Rewheat are larger than for some weeks.
Oats are in fair request at the ruling
prices. Track bids, yesterday, ranged as

Wheat-No. 2 red, 610; No. 3 red, 56c; No. 4 red, 54c; rejected, 45@50c; unmerchantable, 35@40c; wagon wheat, 61c. SEPTEMBER WHEAT 64 3-40

Lowest Price Ever Known for the Leading Cereal This Time of the Year.

On Continued Good Reports of Growing Crops and a Quantity of Realizing Sales Corn Quickly Sold Off 78c.

TRADING AT CHICAGO.

Charley Wright Causes a Sensation in Spare Ribs by Anticipating Armour. CHIGAGO, June 20 .- Wheat to-day was weak at the lowest prices ever known for it, and, compared with last night, closed nearly lo lower for September. Corn was easier on realizing sales and good reports of the growing crop. It declined %c since yesterday. Oats were comparatively firm, the decline in July being only 4c. Provisions were weaker, ribs selling off .25%. Tight money was the cry from the wheat speculators all day. About 30 per cent. is being paid in Chicago, as represented by a spread of 5 cents per bushel between the July and September prices. That was the paramount influence in the market; in fact, news of any other kind was scarcely listened to, and the bears made much of the powerful weapon. There was a report that London people had arranged to carry the wheat here through the Bank of Montreal, but that, it was declared, could only be true on the supposition that London people had the cash wheat here bought for July delivery, which is not generally believed to be the case. Armour & Co. are, it is said, prepared to carry all that it will be necessary to provide for. The opening was about the same as yesterday's closing, and, with slight fluctuations, prices declined 14c for September, then held steady, and the closing was about a cent lower for September and % @10 lower for July delivery than the closing figures yesterday. It was said that some of the Danks had refused to renew loans on wheat and the fact that the September premium widened out to 50 rather strengthened the belief. Later the premium was only 434 @

There was considerable interest in corn, the market ruling quite active most of the prices irregular. The conflicting foreign advices in regard to the duty question made operators more mixed than ever as to which side of the market to lavor. The tone was strong and first sales were at about the final quotations of yesterday. A Paris cable stating that the Assembly had passed a bill to temporarily suspend the duties on corn and that the German government was also contemplating the same, had a very bullish effect. Offerings, however, were greatly increased, several prominent concerns supposed to be long, selling freely, which carried prices down @4c. Private advices coming to hand denying the proposal to abolish duties on corn was considered later news and the In oats the feeling early was strong, but

later weakness developed in sympathy with other grains. There was a little circus in the provision trade. A few packing houses, headed by Armour and the Chicago Packing Company, undertook to sell some short ribs. In this they were anticipated by Wright, who raided the market in a way that made profitable sales difficult. Closing prices were nearer the bottom of the day's range. Compared with latest prices yesterday, September pork is 5c lower, lard is off .15c and ribs lost .25c.

Estimated receipts for to-morrow are: Wheat, 88 cars; corn, 210; oats, 130; hogs, 19,000 head. Freights were slow, but offerings of tonnage were light. Rates to Buffalo were easy at 2c for wheat and 1%c for corn. The leading futures ranged as fol-

500.00

6,500.00

1.00

The sunflower is the best egg-producing food known for poultry, keeping them in a thriving condition and largely increasing the production of eggs. Every poultry raiser who tries will find that this is the best food known for glossing the plumage of fowls, and is almost indispensable for those who want to fit their birds for exhibitton to the best advantage. The Russian sunflower is easily raised, requiring very little care, and can be grown in fence corners and other places difficult to cultivate. Its production of seed is immense, yielding often at the rate of one hundred bushels to the acre. It should be planted in bills four feet apart any time from the 10th of May to the 1st of July. Three quarts of seed will plant an acre.

A notable housewife says of washing Monday: My experience is that the house is up in arms Sunday; nearly everything that is eatable has gone, as all good food goes. I take Monday for putting the house to rights and for mending. I mend every garment that needs it before it goes into the wash. You have no idea what a difference it makes in the wear of things. The

Sheep and Lambs-Receipts, 4.196. The rubbing and starching always enlarges a market was very dull. Sheep, \$3.50@4.50; rent if one has started.
